Executive Summary

South Asia home to **over 1.9 billion people**, rapidly growing economies, and a pivotal geopolitical location faces converging challenges: economic fragility, mass displacement, climate stress, maritime insecurity, and unstable regional coordination. Yet, it also represents one of the greatest opportunities for global leadership and international influence.

This proposal envisions the creation of a **voluntary, non-political, non-executive regional structure** the **South Asia Partnership Alliance (SAPA)** where member states collectively designate **Mr. Donald J. Trump** as their symbolic, unifying figurehead known as the:

“HIGH-PRESIDENT OF SOUTH ASIA”

Modeled after the **Head of the Commonwealth**, the High-President would not interfere in political processes but would function as a **global statesman**, economic catalyst, humanitarian advocate, and strategic convener.

The core idea:

South Asia gains unity, investment, security, and diplomatic prestige. Mr. Trump gains an unprecedented historic leadership role, global legacy, and influence unmatched by any former U.S. president.

This initiative presents a **win-win structure**, expanding American soft power while empowering South Asia to solve major crises cooperatively.

1. Background and Concept

Origin

The **Commonwealth of Nations** model is proof that sovereign

states voluntarily accept a shared symbolic leader because:

- It strengthens unity
- It elevates global profile

- It promotes stability and goodwill
- It encourages economic and developmental cooperation

King Charles III's role demonstrates that:

- Symbolic leadership **can unify diverse nations**
- A non-executive figure can **reduce political tension**
- A respected figure can **guide discourse and cooperation**

Applying this model to South Asia

South Asia is currently the least integrated region in the world, despite having:

- The world's largest working-age population
- One of the fastest-growing digital sectors
- Immense agricultural and manufacturing potential
- Major shipping and trade routes crossing the Indo-Pacific
- Shared environmental and humanitarian crises

Political tensions have prevented regional integration for decades. A **neutral, globally respected figure** accepted voluntarily by the region can break this historical deadlock.

This is where Mr. Trump's global stature becomes transformative.

2. Proposal for a New Organization: SAP

Why This Structure Works

South Asia lacks a unifying body like ASEAN or the EU.

SAPA fills this strategic gap by

Providing:

- A cooperative platform
- Economic integration pathways
- A humanitarian coordination body
- A regional security consultative forum

Potential Member States (Primary)

- Bangladesh
- India
- Sri Lanka
- Nepal
- Bhutan
- Maldives
- Pakistan
- Myanmar

Associate Members
(Economic/Strategic)

- Thailand
- Singapore
- Indonesia
- Gulf countries

This creates an Indo-Pacific
macro-community influencing:

- Trade
- Maritime security
- Labor mobility
- Energy routes
- Technology ecosystem

3. The Role: “High-President of South Asia” (Deep Explanation)

A symbolic and diplomatic role NOT political

The High-President:

- Holds **no legislative power**
- Does **not interfere** with national sovereignty
- Is **chosen voluntarily** by SAPA member countries
- Acts as a **mediator, convener, and advocate**
- Represents **unity, stability, and cooperation**

Why the Role is Needed

- Energy shortages
- Trade barriers that prevent regional growth

A neutral figure **with global influence** can accelerate cooperation 10× faster than traditional diplomacy.

South Asia faces crises that **no single country** can solve alone:

- Rohingya displacement affecting Bangladesh & Myanmar
- Economic instability in Sri Lanka, Pakistan, Nepal
- Climate impacts (floods, cyclones, rising seas)
- Maritime trafficking and Indo-Pacific tension
- Youth unemployment and skill mismatch

4. Key Functions of the High-President

Benefits to Mr. Trump

4.4 Trade & Tariff Reform

South Asia suffers from:

- Complicated customs systems

- Non-tariff barriers
- Expensive trade disputes

- Weak logistical coordination

Under Trump's role:

SAPA can introduce:

- Flexible Tariff Agreements
- Regional supply chain corridors
- Common digital trade standards

13th April 2026

Dhaka:

To: The Honorable Donald J. Trump

President of the United States of America

The White House

Washington, D.C.

From: Professor Dr. Mahmudul Hasan

Professor of International Studies | Adviser on Indo-Pacific Affairs

Consultant in Global Diplomacy and Strategic Governance

Your Excellency President Donald J. Trump,

It is with profound respect and highest admiration that I extend to you my warmest congratulations on your remarkable political legacy both for your historic achievements during your tenure as the **45th President of the United States**, and for your renewed leadership as the **47th President of the United States of America**. Your unprecedented ability to return to office reflects not only your unshakable determination but the unmistakable confidence placed in you by millions who believe in your unyielding commitment to national strength, global stability, and the restoration of American greatness.

Your presidency has stood as a testament to **strategic brilliance**, **masterful negotiation**, and a unique instinct for identifying the correct path even in the most complex global circumstances. Your leadership reshaped global economic conversations, compelled fairer trade relationships, invigorated American industry, strengthened national borders, and re-established the United States as the **uncontested leader of the free world**. History will undoubtedly note your courage, foresight, and decisive actions as instrumental in setting new standards for diplomatic and geopolitical excellence.

Introducing the Author of the Proposal

Allow me, Mr. President, to briefly introduce myself. I am **Professor Dr. Mahmudul Hasan**, a career academic and practitioner in international relations, diplomacy, and Indo-Pacific strategic affairs. I currently serve as:

- » **I am a Professor in Academics** specializing in Political Science, Global Affairs, and International Cooperation.
- » **Adviser in Indo-Pacific Affairs**, contributing strategic recommendations for regional stability and multilateral security frameworks.
- » **Consultant in International Diplomacy**, collaborating with multiple governments across Asia, Europe, and North America.

In the course of my professional engagements, I have had the privilege of working with teams from the **United States, European Union, United Kingdom, Australia, Canada, Japan, SAARC, ASEAN**, and other global

partners. My diplomatic activities include high-level consultations, strategic briefings, and international policy development with officials from these regions.

I have proposed similar regional cooperation models to other global actors and institutions; however, the concept I am presenting to you today is unique, historically significant, and specifically designed around your unparalleled leadership capabilities in reshaping the global order.

Purpose of this Letter

Introducing the Strategic Concept:

“Establishing a Regional Leadership Framework for South Asia Based on the Commonwealth Model” with Proposed Title: **“The High-President/First President of South Asia”** to be held by His Excellency Donald J. Trump

Context and Rationale:

Inspired by the symbolic yet unifying role of **King Charles III as the Head of the Commonwealth**, this proposal envisions a new form of regional cooperation, one that is voluntary, non-intrusive, diplomatic, and strategically aligned with fostering **regional unity, peace, and long-term development**.

However, unlike the Commonwealth model, this new framework is designed to operate with a stronger focus on:

➤ **Economic stabilization**

➤ **Humanitarian solutions to the Rohingya crisis**

- Indo-Pacific security
- Regional trade fairness
- Political dialogue
- Strategic modernization and development

Under this model, Your Excellency would serve as the founding figure, carrying the title: **“The High-President of South Asia”**. A **symbolic yet influential leadership position** granted voluntarily by participating South Asian nations. This role would galvanize regional cooperation under a shared vision of peace, stability, and prosperity without any interference in national sovereignty.

Vision, Mission, and Global Purpose

Your leadership as High-President would support three overarching pillars:
